Member Update

Title: LD correction – Victoria

Update No.: 44 of 08

Date of Issue: 20th November 2008

Distribution

- NACMA Members – primary contact list. Please circulate to all appropriate internal parties.

Background

Ouyen was incorrectly listed as being NTP to Melbourne and Port Adelaide.

By definition a site's NTP will be to the port with the lowest Location Differential with rail access and where there is no rail access, to the port with the lowest Location Differential.

Ouyen does not have rail access to Port Adelaide so the NTP is Melbourne.

Change

- **Victoria** – NTP for Ouyen corrected to Melbourne only.

Reference

Members are encouraged to review the attached Victorian table to clarify Ouyen's NTP.
